LEWIS AND CLARK TRAIL

Relive the drama of the nation's westward expansion by retracing the route of the Lewis and Clark Expedition through Montana. In just over 28 months—from May 1804 to September 1806—co-commanders Meriwether Lewis and William Clark traveled more than 8,000 miles on foot, on horseback and by boat. Well over a quarter of that distance was spent in Montana, where much of the land they explored remains unchanged. Searching for a water route to the Pacific, they charted a vast, new territory and made tremendous contributions to a young nation's knowledge of its western geography, resources and native inhabitants.

Follow the Lewis and Clark Trail in Montana along portions of many state, U.S. and interstate highways, as shown on the map below. Both the highways and the state highway map are marked with the Lewis and Clark Trail sign shown here.

Among the sites that are readily accessible are: interpretive sites in both Fort Benton **(2)** and Great Falls **(3)**; Giant Springs Heritage State Park in Great Falls **(3)**, where Clark discovered a huge "fountain or spring" during an 18-mile portage around the Great Falls of the Missouri; the Gates of the Mountains **(4)**, north of Helena on I-15, where the Missouri flows through a narrow passage flanked by what Lewis described as "the most remarkable clifts that we have yet seen"; Missouri Headwaters State Park **(5)**, near Three Forks, where the Jefferson, Madison and Gallatin rivers join to form the Missouri; Beaverhead Rock State Monument **(6)**, an important landmark north of Dillon on MT 41; Lemhi Pass **(7)**, west of Rt. 324 in extreme southwestern Montana, where Lewis and Clark crossed the Continental Divide on their westward journey; Travelers Rest **(8)**, near the junction of US 12 and 93 south of Missoula, where the expedition split into two parties on the return trip east; Lolo Hot Springs **(9)**, on US 12 southwest of Missoula, where the expedition camped; Lolo Pass Visitor Center **(10)**, on US 12 at the Montana-Idaho border, which has an interpretive site, and Pompeys Pillar **(11)**, off I-94 east of Billings, where Clark carved his signature in a large sandstone rock along the Yellowstone River.

Commercial boat tours retrace the river route of Lewis and Clark at the Gates of the Mountains **(4)**, north of Helena, and in the scenic White Cliffs area of the Missouri River, below Fort Benton **(1)**.

One of the best ways to learn more about the expedition is by traveling with one of the condensed versions of the Lewis and Clark Journals, available in many bookstores. Other sources of information are:

MONTANA INVITES EXPLORATION

GLACIER COUNTRY
800-338-5072 or 406-756-7128

SCENIC ATTRACTIONS/OUTDOOR RECREATION

Flathead Lake (B, C-2). Occupying nearly 200 square miles, Flathead Lake is the largest natural freshwater lake west of the Mississippi River. An island park, several campgrounds and picnic areas, fishing, boating and nearby championship golf courses make Flathead one of Montana's favorite getaways.

Glacier National Park (A, B-2, 3). Living glaciers, sparkling lakes, deep forests, wildflowers, waterfalls and watchable wildlife invite exploration. Going-to-the-Sun Road (open June to mid-October), a spectacular 52-mile drive, crosses the Continental Divide at Logan Pass and traverses the scenic Garden Wall. More than 700 miles of trails make Glacier a favorite among hikers.

Hiking. All or part of eight federally protected wilderness areas comprising nearly 2 million acres of untrammeled forest, mountains and rivers welcome hikers, horseback riders and other nonmotorized travelers. They are: Bob Marshall, the "flagship of the nation's Wilderness fleet" (C-3); Great Bear (B-3); Cabinet Mountains (B-1); Rattlesnake (D-2); Selway-Bitterroot (E-2); Welcome Creek (E-2); Mission Mountains and Mission Mountains Tribal Wilderness (C-2), and Anaconda-Pintler (F-2, 3). Add the Jewel Basin Hiking Area (B-2) and Glacier National Park (A-2) and you're in hikers' heaven.

National Bison Range (D-2), off US 93 at Moiese. This national treasure protects one of the most important remaining herds of American bison. Visitor center and year-round self-guided auto tour.

The Crow Reservation (F, G-8, 9) is Montana's largest reservation and encompasses some of its most scenic and historic sites, including Bighorn Canyon and Little Bighorn Battlefield National Monument. Every August, Crow Agency (G-9) becomes the "tepee capital of the world" during the annual Crow Fair Powwow and Rodeo, which draws Indian celebrants from throughout the U.S. and Canada. At Pryor (G-8), visit Chief Plenty Coups State Park, which preserves the home and burial site of Chief Plenty Coups, last chief of the Crow Indians. Visitor center and interpretive displays explain the Crow Indian culture. Just east lies the Northern Cheyenne Reservation (F, G-10), home of about 5,600 Northern Cheyenne. A historical buffalo jump, burial sites of Indian chiefs and Custer's last camp before the Battle of the Little Bighorn are of special interest. Lame Deer is tribal headquarters and home of the Northern Cheyenne Tribal Museum and Northern Cheyenne Powwow in July.

On June 25, 1876, the U.S. Cavalry was crushed by Sioux and Cheyenne warriors in the historic Battle of the Little Bighorn. Among the dead was Lt. Col. George A. Custer. Battlefield includes visitor center, museum, ranger- and self-guided tours.
